Objective

- Aspiring full-stack developer with experience in Python, Node.js, and front-end technologies like HTML, CSS, and JavaScript. Seeking an opportunity to leverage skills in web development and Django for building scalable and efficient applications.

Education

Bharatha Matha R.C. Higher Secondary School

Bio-Maths

2021 – 2022

Ariyalur, Tamil Nadu

SRM TRICHY ARTS AND SCIENCE COLLEGE

Bachelor of Computer Application

2022 – 2025

Trichy, Tamil Nadu

Intern

CodeBind Technologies

May 2024 – August 2024

Web Development Intern

Trichy, Tamilnadu

- Gained hands-on experience in HTML, CSS, PHP, and MySQL, applying web development concepts to real-world scenarios.
- Developed a comprehensive project titled "Business Management System Using HTML, CSS, PHP, and MySQL," aimed at streamlining business operations through efficient data management and user-friendly interfaces.
- Collaborated with senior developers to enhance the application's features, improve database efficiency, and implement responsive design for cross-platform compatibility.
- Participated in code reviews and debugging sessions to optimize performance and ensure the robustness of the system.

Projects

Paanda Shopping | HTML, CSS, JavaScript

January 2023

- Developed a front-end web application titled "Paanda Shopping" using HTML, CSS, and JavaScript. The app features a user-friendly interface and an attractive design.
- Implemented responsive design to ensure functionality across devices, enhancing user experience and accessibility.
- Utilized JavaScript for dynamic interactions, improving the overall shopping experience and engagement.
- Focused on intuitive navigation and aesthetic layout to boost customer satisfaction and ease of use.

Restaurant Data Collector | HTML, CSS, Node.js, Express

May 2023

- Developed a web application titled "Restaurant Data Collector" using HTML, CSS, Node.js, and Express. The app allows users to input their restaurant details and view information about various restaurants.
- Implemented responsive design to ensure functionality across devices, enhancing user experience and accessibility.
- Utilized JavaScript for dynamic interactions, improving user engagement and overall functionality.
- Focused on intuitive navigation and an aesthetically pleasing layout to boost customer satisfaction and ease of use.

Employee Management System | Python, Flask, HTML, CSS, MySQL

January 2024

- Developed an "Employee Management System" using Python and Flask, with HTML and CSS for the front end. The application allows users to manage employee data effectively.
- Implemented features to edit, delete, and retrieve employee information, streamlining the management process.
- Utilized MySQL for data storage, ensuring secure and efficient handling of employee records.
- Focused on creating a user-friendly interface to enhance usability and accessibility for end-users.

Technical Skills

Languages: HTML, CSS, Python, JavaScript

Frameworks: Flask, Django, Node.js

Databases: MySQL

Developer Tools: VS Code, Canva

Extra Curricular

Executive Member

August 2024 – May 2024

- Organized and conducted a mathematics quiz as an executive member of the Math Department in celebration of Ramanujan's birthday.

Sports, Badminton

2023

- Participated in a university badminton match and secured first place in the college home badminton tournament.
